

Migrate to Australia as a Registered Nurse

Outcome-Based Assessment (OBA)

About Us

JONY LEADS CONSULTANCY SERVICES PVT.LTD. is a registered firm by the Ministry of Corporate Affairs, Government of India, assisting registered nurses to migrate to Australia and New Zealand. We value our clients and strive to exceed their expectations. We guide and assist nurses through the process of becoming registered nurses in their dream country, and we help their families migrate and settle along with them. Our careful and detail-oriented approach ensures a smooth transfer into the global nursing industry.

How Do I Become a Registered Nurse in Australia?

To work as a registered nurse in Australia, it is mandatory to have an AHPRA registration (Australian Health Practitioner Regulation Agency).

Internationally qualified nurses and midwives need to successfully complete the OBA (Outcome-Based Assessment) to gain AHPRA registration.

Registered Nurses (RNs) from New Zealand and NMBA-approved comparable jurisdictions, may eligible to follow a separate pathway for Direct AHPRA Registration.

What is OBA?

Since March 2020, the NMBA (Nurses and Midwifery Board of Australia) has permanently transitioned to the new model of assessment for internationally qualified nurses and midwives and has adopted the outcome-based assessment (OBA) approach to assess and evaluate the qualification of IQNMs. The new model was designed by NMBA and adopted by AHPRA (Australian Health Practitioner Regulatory Agency).

Eligibility Criteria – OBA

JONYLEADS® OVERSEAS
CONSULTANCY SERVICES PVT. LTD. EDUCATION
& CAREER
